This done, get a short punch of iron and let the small end be filed to short punch of iron and let the small end be filed to shout the bigness that you intend your knobs shall be, where you will have knobs, punch holes with a hannur therein, and so do on every side. PENMANSHIP — Messrs. A. H. WHEELER & H. DINON, of 251 Broadway, the former of whom has been a favorite teacher of penmanship for 30 years past, have lately executed some splendid specimens of writ-ing and pen-and-ink drawing. Those exhibited at the Far of the American institute, especially a head of Washington and a copy of the Declaration of Indepen-dence were universally admired, and both received the permium awarded by the Judges. The abilities of Massrs, W. & D. as teachers, are too well known to

Full returns had not been received, but enough was known to leave no doubt of the party commonly called the Liberal party, having a manual second of the evenings of the present week. There will be an exhibition this afternoon, st 3 week. There will be an exhibition of families and schools.

There is also a report, by way of Jamaica, that the Haytien Government was making secret preparations to march upon the island of Dominica—the Dominicans having consented to receive under their flag 300 families of the Haytien refugees.

The accounts from Demarara represent commercial matters to be in abeyance, in consequence of the quarrel with the Home Government. The markets are glutted with produce.

Accounts from Tortola, Granada, state that the blacks are still holding out at St Croix.

in the expectation of tidings from the seat of war, Maracaibo.

This uncertainty is of the most disastrous consequence. No confidence for business, no importations, and of course a great scarcity of money.

This Government has named Mr. Richel Accreding formerly Secretary of State for Finances and for Foreign Affairs, as Charge d'Affaires at Washington. The treaty of commerce between the floquible of the United States and Venezuela has just expired, and according to the said treaty, after a term of twelve years, either of the two republics has the right to notify the other of the inention of its being modified. I suppose in the new fresty this Government intends to reduce the actual tariff on American provisions, which is really too high.

Mr. V.— do la C.—, lately resident in your city, has been named General Consul of Commerce in Washington, or any neighboring city. He has been charged, beside with several commissions, which he will very likely fulfil.

A report has been circulated in these last five days, that Maracaino had been retaken by the insurgents, but without the least foundation. I believe it has been a commercial speculation—that is to say, to put down the Treasury notes.

The steamer "Augusta" of New Orleans has been bought by the Government for \$30,000.

Coffee from 4 to 51; Hides from 5 to 51.
